### **Tax Commission posts Updated tables on web**

The Utah State Tax Commission has posted on its website updated information for employee withholding taxes.

The updated information is at [www.tax.utah.gov](http://www.tax.utah.gov).

The Tax Commission is also in the process of printing and mailing updated copies of the publication to about 80,000 employers in Utah.

The revised tables will help employers and their employees withhold adequate amounts from each paycheck to cover 2008 income tax associated with wages. Once employers begin using the revised tables, some employees may see a decrease in their withholding from what was withheld in January and others may see an increase.

“However, all the revised 2008 tables withhold less than what was withheld in 2007 for the same wages and allowances,” said Charlie Roberts, spokesman for the agency.
